1 Description

The end bracket provides a secure fit for the components on the NS 35/7,5 and NS 35/15 mounting rails.

It is characterized by a pitch of 5.2 mm and makes it possible to accommodate ZB 5, ZBF 5 and KLM 2 for terminal strip marking.

The end bracket offers parking facilities for FBS plug-in bridges and test plugs. In addition, it can be continuously bridged when combined with ST and QTC terminal blocks.
